Education

• 2020-2024

NDT in Information Technology
University of Moratuwa

• 2004-2018

R/Kalawana National School

A/L RESULTS = C3
(PHYSICAL SCIENCE)

Technical Skills

Language

- Java
- Dart

Frameworks

- Flutter

Web Development

- HTML, CSS, JAVASCRIPT
- React, Node
- MySQL, MongoDB, Firebase

Ashen Malindu

I am a Software Engineer, educated at the Institute of Technology, University of Moratuwa, where I completed my academic studies. I am passionate about full-stack development and seeking an opportunity to get experience while applying my knowledge to the field and giving my best to the company.

Experience

Intern Software Engineer

- Parallax Technologies (Pvt) Ltd
May 2023 to November 2023

Trainee Software Engineer

- Parallax Technologies (Pvt) Ltd
November 2023 - September 2024

StoreMate Mobile App

Developed the StoreMate POS mobile app using Flutter, focusing on front-end development, data binding, and offline functionality. Implemented background sync, invoice PDF generation, and designed the transaction report section. The app enables customers to easily process sales.

SEARLE Mobile App

I developed MediApp using Flutter, an online platform that enables users, doctors, and pharmacies to book appointments and plan site visits, improving efficiency for healthcare providers and site visitors.

Skills: Flutter, Firebase, MySQL, Data binding, Sentry, Git and Github, MVVM, UI/UX, Postman

Projects Experience

Final Project: Group Communication Platform for ITUM

This is for the inter-university communication platform to chat groupwise, inform about upcoming events, communicate with students with unique features, jobs sharing, and the poll-creating option.

Technologies: Flutter, Firebase

Tools

- Visual Studio Code
- Android Studio

Version Control

- GitHub

Other skills

- Adobe XD, Figma

Soft Skills

- Good communication skills
- Team Work
- Creativity
- Problem-solving

Fuel que management app

This is for managing fuel queues in fuel stations. Station owners and users can register separately and they can use this mobile app.

Technologies: Flutter, NodeJS, MongoDB

Vote app

This is an individual project. Users can register to the app and create a poll, others can give responses for them. Finally, users can see the results.

Technologies: Flutter, Firebase

Blog site

This is an individual project. Users can create, read, delete, update, and edit the posts after registering to the website.

Technologies: React, Express, Node, MongoDB

Portfolio Website

Technologies: React

Certifications

Scrum Foundations Professional Certificate (SFPC) CertiProf

SQL (Basic) Certificate -HackerRank

Java (Basic) Certificate -HackerRank
